[@elanalynn](https://twitter.com/elanalynn) 
[720.427.2892](tel:720.427.2892) 
2831 W 27th Ave. #304 
Denver, CO 80211

SKILLS

Proficient:

Semantic HTML5,
Responsive CSS3, Sass,
JavaScript, jQuery,
Angular,
Node, Express,
PostgreSQL, Knex,
RESTful Design,
Git, Agile Methodologies,
Photoshop, Illustrator,
WordPress, Jekyll,
Google AdWords, Analytics

Explored:

React, Ruby on Rails,
MongoDB,
Python, Swift,
Web Sockets, D3.js

LIFE

I enjoy (extremely) casual sports,
illustration, design, writing,
reading and drinking good coffee.
I also care a lot about animals,
education and clean energy.
Most importantly, I am
passionate about learning.

PROJECTS

Stumblr— **React, React Router, Express, MongoDB, Google Places API, Twitter API**
Plan an epic pub crawl on the go with this fun web app. Designed for mobile first, Stumblr utilizes Google Places API to map an optimal bar route based on location and preferences. (stumblr.club)

Planit — **JavaScript, jQuery, Node, Express, PostgreSQL, Knex, LinkedIn Auth**
An event resource marketplace. As a user, you can post events and tasks. You can also apply to other users' tasks based on your skillset as defined in your profile. This was a group project, demonstrating server-side proficiencies. (planit.space)

Your Life in Weeks — **JavaScript, jQuery, localStorage, Google Maps API, Bootstrap**
An interactive visualization of a life in weeks. This was a front-end focused project, created prior to learning about persistence, so events are just kept in localStorage, but the full-stack version is in the works. (kopelevich.org/weeks)

Personal Portfolio — **Angular, Foundation**
A single page application that utilizes ngAnimate and UI Router. (kopelevich.org)

EXPERIENCE

Experience Coordinator at [Galvanize](#)
Denver, CO | August 2015 - Present

I sought out this part-time position with Galvanize while I was still in my marketing mindset. Having recently moved back to Denver, I was eager to get involved with the startup world. This position became a great gateway into my new life as a developer.

Marketing Director at [RevoluSun](#)
Honolulu, HI | November 2012 - June 2015

I managed a small team and had direct involvement with every part of the marketing process, from digital marketing, website maintenance, traditional marketing, events, material development and everything in between.

EDUCATION

Galvanize, Denver, CO (OCT 2015 - MAR 2016), [Full Stack Certificate](#)

An intensive, full-time, six month curriculum, taught in the heart of an entrepreneurial incubator. Our course covered the fundamentals of web development, the NEAP stack, UX/UI, DevOps, Software architecture and much much more.

University of Colorado, Denver, CO (AUG 2004 - MAY 2009), [BFA, Animation](#)

My undergraduate experience was a mix of traditional education and a hands-on project-based curriculum. It was a great foundation for team-focused projects and learning how to learn.
